

That was then. This is next.

Wild Well has built a lasting legacy upon dependability, courage, and innovation.

Our new brand identity conveys our promise to carry that legacy into the future, as we continue to innovate and evolve.

As the leading provider of comprehensive emergency response and resolution, prevention, and operational services for the oil and gas industry, Wild Well offers innovative solutions to complex issues. No other company on earth can claim a more experienced team, more jobs successfully completed, or more industry personnel trained each year.

Well Control Services

- Firefighting and well control
- Pressure control
- Hot tap and valve drill
- Freeze services

Well Control Engineering

- Well modeling
- Dynamic kill modeling
- Relief well planning
- Well control advisory and project management

Marine Well Services

- Riserless light well intervention
- Unconventional decommissioning
- WellCONTAINED™

Training & Rigsite Services

- Well control training
- Rigsite assessment through kick drills
- Well control equipment surveys
- Well specific readiness training

HSE Training

- Incident response training
- Incident management training

BTI Services

- Rental services
- Fishing services
- Special services
- Subsea tools

CSI Technologies

- Cement engineering services
- Lab and testing services
- Resin technology
- Research and product development

Prospect

- Flow assurance and thermal engineering
- Multiphase flow and computational fluid dynamics (CFD)
- Multi-physics simulations
- Structural and mechanical design engineering
- Advanced structural finite element analysis (FEA)
- Marine dynamics and installation engineering
